BLUNDSTONE WOMEN’S SAFETY FOOTWEAR

Designed for busy women who are on their feet all day, features a composite toe cap and breathable upper.

The lightweight hiker design is perfect for work and play. With a black neoprene collar, zip side and composite toe, it’s the perfect combination of convenience, safety and style.

BLUNDSTONE WOMEN’S SAFETY FOOTWEAR

- Steel toe cap. Water resistant and the tough sole can handle oil, acid and organic fat. Insulated. Kevlar stitching on critical seams.
- Black platinum quality leather high leg 150mm height safety boot. Kevlar reinforcing on critical seams.
- A corporate safety shoe that is at home in the office and on work site.
- This is the ultimate safety boot with a steel toe cap, penetration resistance and mechanical protection.

Bundstone’s premium range of XsO® rubber sole work boots feature cutting edge innovation. PORON® XRD™ provides comfort and shock protection, and composite toe, it’s the perfect combination of convenience, safety and style.

At risk of chemical burns? Diphoterine Solution

Diphoterine® solution is an emergency rinsing solution for splashes of chemical products*. It is intended for first-aid use on the human body. Its rapid use in case of splashing or contact of the skin or eye with a chemical product makes it possible to limit the extent of the burns and lesions caused.

Designed with smart and intuitive features, the 3M™ Secure Click Half Mask Reusable Respirator HF-800SD Series helps protect workers from particulates and a wide variety of gases and vapours when used with approved 3M™ Secure Click™ filters and cartridges.

- Unique Filter & Cartridge Design: For compatibility with certain welding and grinding shields.
- Swept Back Filter: Helps direct exhaled breath downward.
- Exhalation Valve: Helps direct exhaled breath downward.
- Four Airflow Paths: For easier breathing.
- Easy-Adjust Buckle: Enables simple two-way adjustability: pull straps to loosen, squeeze wings to tighten.
- Push Button Seal Check: Enables easy, one-touch, user seal check.
- Speaking Diaphragm: Utilises the speaking diaphragm designed to help provide easier communication while working.
- EKPA: Provides a softer feel for more breathability and comfort provided by the all new Secure Click connection, that filters/cartridges are installed properly. Simply align the connections and push to hear a click.
- Potentially Discovered: Free Joint-Financed: Provides a softer feel for more comfort on the wearer’s face.
- Increase worker confidence that the respirator is being worn properly with the easy, one-touch, user seal check.
- Work with the confidence, provided by the all new Secure Click connection, that filters/cartridges are installed properly. Simply align the connections and push to hear a click.
- Experience the greater breathability and comfort provided by the world’s first quad-flow gas and vapour filter/combination filter system.

CleanSpace respirators are available in a range of variants. Featured the intrinsically safe version certified for some potentially explosive environments.

A powered air purifying respirator (PAPR) designed to provide high protection Comfortable and easy to wear over long periods Lightweight 550g No hoses, belts or waist mounted battery packs. Particulate and gas filters available.

**AMARE (ARMOUR)**

From the Latin language and history. A protective cover for the body, to shield, defend or guard from injury or danger. A necessity throughout time, man has needed to protect, shield and defend himself and the need to do so still remains.
