1. Identification

**Product identifier**
HOLEMAKER METAL WORKING FLUID, SPFLUID, SPFLUID1, SPFLUIDS, SPFLUID20

**Other means of identification**
SDS No. Not applicable

**Recommended use of the chemical and restrictions on use**
**Recommended use** METALWORKING FLUID
**Restrictions on use** Not available.

**Details of manufacturer or importer**
**Manufacturer**

- **Company name**: CIMCOOL Korea Inc
- **Address**: 255,Gongdan-ro,Onsan-eup,Ulju-gun,Ulsan,Korea
- **Telephone**: +82-52-239-2333
- **Emergency telephone number (Korea)**: +1-703-527-3887 (CHEMTREC)

**Importer**

- **Company name**: INDUSTRIAL TOOL & MACHINERY SALES
- **Address**: 18 Business Street Yatala QLD 4207
- **Telephone (General Information)**: 07 3287 1114
- **Emergency telephone number (24 hour access)**: 131 126 (Poison Information Centre)
- **Emergency telephone number (CHEMTREC)**: 1-703-527-3887

2. Hazard(s) identification

**Classification of the hazardous chemical**

- **Physical hazards**: Not classified.
- **Health hazards**
  - Skin corrosion/irritation: Category 2
  - Serious eye damage/eye irritation: Category 2
  - Sensitization, skin: Category 1
- **Environmental hazards**: Not classified.

**Label elements, including precautionary statements**

**Hazard symbol(s)**

![Exclamation mark]
Exclamation mark

**Signal word**
Warning

**Hazard statement(s)**
Causes skin irritation. Causes serious eye irritation. May cause an allergic skin reaction.

**Precautionary statement(s)**
**Prevention**
Wear protective gloves/protective clothing/eye protection/face protection. Avoid breathing dust/fume/gas/mist/vapors/spray. Contaminated work clothing should not be allowed out of the workplace. Wash thoroughly after handling. Avoid release to the environment.
Response

IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or doctor/physician if you feel unwell. Take off contaminated clothing and wash before reuse.

Storage

Store in accordance with local/regional/national/international regulation. Store in a well-ventilated place. Keep container tightly closed. Protect from sunlight. Store away from incompatible materials.

Disposal

Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards which do not result in classification

None known.

Supplemental information

None.

3. Composition/information on ingredients

4. First-aid measures

Description of necessary first aid measures

**Inhalation**

If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell. Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

**Skin contact**

Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

**Eye contact**

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

**Ingestion**

Rinse mouth thoroughly. Do not induce vomiting. Get medical advice/attention if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.

**Personal protection for first-aid responders**

If exposed or concerned: Get medical advice/attention. Show this safety data sheet to the doctor in attendance.

**Symptoms caused by exposure**

Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

**Medical attention and special treatment**

Provide general supportive measures and treat symptomatically. Symptoms may be delayed.

5. Fire-fighting measures

**Extinguishing media**

**Suitable extinguishing media**

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable extinguishing media**

Not applicable, non-combustible.

**Specific hazards arising from the chemical**

During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for fire fighters**

Wear suitable protective equipment.
Fire fighting equipment/instructions

Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk.

Hazchem code

Not available.

General fire hazards

No unusual fire or explosion hazards noted.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials. In the event of fire and/or explosion do not breathe fumes.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

For emergency responders

Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground. Contact local authorities in case of spillage to drain/aquatic environment. Use appropriate containment to avoid environmental contamination.

Methods and materials for containment and cleaning up

Local authorities should be advised if significant spillages cannot be contained. This product is miscible in water.

Large Spills: Stop the flow of material, if this is without risk. Absorb in vermiculite, dry sand or earth and place into containers. Prevent product from entering drains. Prevent entry into waterways, sewer, basements or confined areas. Clean up in accordance with all applicable regulations. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Precautions for safe handling

Do not handle until all safety precautions have been read and understood. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Do not get in eyes, on skin, or on clothing. Avoid breathing mist or vapor. Avoid prolonged exposure. Do not get this material on clothing. When using, do not eat, drink or smoke. Provide adequate ventilation. Do not use in areas without adequate ventilation. Avoid release to the environment.

Conditions for safe storage, including any incompatibilities

To maintain product quality, do not store in heat or direct sunlight. Store in original tightly closed container. Room temperature - normal conditions. Do not allow material to freeze. Store away from incompatible materials (see Section 10 of the SDS). Keep this material away from food, drink and animal feed. If frozen, product may separate. Thaw completely at room temperature and stir thoroughly prior to use.

8. Exposure controls and personal protection

Control parameters

Follow standard monitoring procedures.

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash fountain and emergency showers are recommended.

**Individual protection measures, for example personal protective equipment (PPE)**

- **Eye/face protection**
  
  Wear safety glasses with side shields (or goggles). Eye wash fountain is recommended.

- **Skin protection**
  
  **Hand protection**
  
  Use protective gloves made of: Nitrile.

  **Other**
  
  Wear suitable protective clothing and gloves.

- **Respiratory protection**
  
  In case of insufficient ventilation, wear suitable respiratory equipment.

- **Thermal hazards**
  
  Wear appropriate thermal protective clothing, when necessary.

**Hygiene measures**

When using, do not eat, drink or smoke. Do not get in eyes, on skin, on clothing. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

**9. Physical and chemical properties**

- **Appearance**
  
  CLEAR

- **Physical state**
  
  Liquid.

- **Form**
  
  Liquid.

- **Color**
  
  Not available.
Odor: Chemical

Odor threshold: Not available.

pH: 9.6

Melting point/freezing point: 23 °F (-5 °C)

Initial boiling point and boiling range: > 212 °F (> 100 °C)

Flash point: Not Applicable

Evaporation rate: Like water when diluted

Flammability (solid, gas): Not applicable.

Upper/lower flammability or explosive limits
- Flammability limit - lower (%): Not available.
- Flammability limit - upper (%): Not available.
- Explosive limit - lower (%): Not available.
- Explosive limit - upper (%): Not available.

Vapor pressure: Not available.

Vapor density: Not available.

Relative density: Not available.

Solubility(ies)
- Solubility (water): 100 % Water Miscible
- Partition coefficient (n-octanol/water): Not available.

Auto-ignition temperature: Not available.

Decomposition temperature: Not available.

Viscosity: Not available.

Other physical and chemical parameters
- pH in aqueous solution: 9.2 @ 5%
- Specific gravity: 1.068

10. Stability and reactivity

Reactivity: The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability: Material is stable under normal conditions.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use. Hazardous polymerization does not occur.

Conditions to avoid: Contact with incompatible materials.

Incompatible materials: Do not add sodium nitrite or other nitrosating agents which may form cancer causing nitrosamines. Strong acids. Avoid contact with oxidizers or reducing agents.

Hazardous decomposition products: Smoke, fumes, oxides of nitrogen, and oxides of carbon

11. Toxicological information

Information on possible routes of exposure
- Ingestion: Expected to be a low ingestion hazard.
- Inhalation: Prolonged inhalation may be harmful. Under normal conditions of intended use, this material is not expected to be an inhalation hazard.
- Skin contact: Causes skin irritation. May cause an allergic skin reaction.
- Eye contact: Causes serious eye irritation.

Symptoms related to exposure: Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

Acute toxicity: May cause an allergic skin reaction. Expected to be a low hazard for usual industrial or commercial handling by trained personnel.

* Estimates for product may be based on additional component data not shown.

### Skin corrosion/irritation
Causes skin irritation. Prolonged skin contact may cause temporary irritation. Defatting, drying and cracking of skin.

### Serious eye damage/irritation
Causes serious eye irritation. Direct contact with eyes may cause temporary irritation.

### Respiratory or skin sensitization
Respiratory sensitization: Not a respiratory sensitizer.

Skin sensitization: May cause an allergic skin reaction.

Germ cell mutagenicity: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity: This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

### 13. Disposal considerations

**Disposal methods**

Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

**Residual waste**

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging**

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.

### 14. Transport information

**ADG**

Not regulated as dangerous goods.

**RID**

Not regulated as dangerous goods.

**IATA**

Not regulated as dangerous goods.

**IMDG**

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not established.

### 15. Regulatory information

**Safety, health and environmental regulations**

This Safety Data Sheet was prepared in accordance with Australia Model Code of Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals (23/12/2011).

**Australia Medicines & Poisons Appendix A**

Poisons schedule number not allocated.
OXIRANE, METHYL-, POLYMER WITH OXIRANE (CAS 9003-11-6)

Low toxicity. General: Any use

TRIETHANOLAMINE (CAS 102-71-6)

For advice, contact a Poisons information Centre (Phone eg Australia 131 - 126; New Zealand 03 - 4747 - 000) or a doctor (at once). If swallowed, do NOT induce vomiting. If in eyes wash out immediately with water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

applies to all preparations in any concentration Corrosive. Product will irritate the eyes, nose, throat and skin. WARNING - Vapour may be harmful. Avoid contact with eyes. Avoid contact with skin. Avoid breathing dust (or) vapour (or) spray mist. applies to all preparations in any concentration Irritant. Avoid contact with eyes. Avoid contact with skin.

MONOETHANOLAMINE (CAS 141-43-5)

For advice, contact a Poisons information Centre (Phone eg Australia 131 - 126; New Zealand 03 - 4747 - 000) or a doctor (at once). If swallowed, do NOT induce vomiting. If in eyes hold eyelids apart and flush the eye continuously with running water. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

applies to all preparations in any concentration Corrosive. Product will irritate the eyes, nose, throat and skin. WARNING - Vapour may be harmful. Avoid contact with eyes. Avoid contact with skin.

TRIETHANOLAMINE (CAS 102-71-6)

applies to all preparations in any concentration Irritant. Avoid contact with eyes. Avoid contact with skin.
High Volume Industrial Chemicals (HVIC)
MONOETHANOLAMINE (CAS 141-43-5) 1000 - 9999 TONNES See the regulation for additional information.
